

Types of Users:

- ① Registrars
- ② Instructors
- ③ Students
- ④ Guests (Student view?)

- All users get a personal profile page except for guests.
- Tutorial button on top right.
- Follow a Material UI color scheme.
- Button with apply.

→ Q. How do we setup terms & classes

Students:

- Student GPA is public to all users
- Student major is shown under their name
- Student with low GPA will receive warning. (Warning demand an interview with the registrars. Students whose semester GPA is above 3.75 or overall GPA >1 semester higher than 3.5 will be labeled as honor roll students automatically, and one such honor can be used to remove one warning if there is any. Students finishing 8 classes (remember this is a graduate student management system) can apply for graduation, if the registrars find all required courses are covered the student will graduate and

Classes:

- Students can rate classes & give reviews (filter)
- Rating for each class is calculated & shown
- Course time conflict alert.
- Waiting list for classes. (Possibly implement an emailing service?)
- Students can retake a class if they got an 'F'.
- Courses with less than 5 students is cancelled.
- Students with only 2 classes are warned.
- Dropping class feature
- Students cannot rate classes after grading is over
- Students can complain about teachers / students
- Student can be suspended
- Perish
- Dropping class with 'W'

Instructors:

- Can be rated by students
- Classes being taught this semester
- Assign student their grade for each test
- Instructors with GPA limits will be questioned by registrars.
- Only instructor can see current classes

Bonus:

- Form for connecting student & tutor
- Apply to be a tutor on the class page.
